

# VisionMD - Data Deletion Request Instructions

Developer: Diego L. Guarin | VisionMD, University of Florida

## How to Request Data Deletion

1. Send an email to: [d.guarinlopez@ufl.edu](mailto:d.guarinlopez@ufl.edu)
2. Use the subject line: Remove Data VisionMD
3. In the email body, include the email address used to create your VisionMD account.

## What Happens Next

Once we receive your request, your account will be deactivated and all personally identifiable information will be removed from our database within 48 hours. A confirmation email will be sent once processing is complete.

## What Data Is Deleted

- Account information (email/user ID)
- Uploaded videos and associated metadata
- Raw movement data linked to your identity

## What Data Is Retained

- Anonymized digital biomarkers derived from your data
- Associated clinical diagnosis linked to those biomarkers
- Retained data is fully anonymized and cannot be traced back to your identity

## Data Retention Policy

Anonymized data will be stored permanently for research and development purposes.

No identifiable user information will be preserved.
